Feedback

- Concerned with the size and character of the proposed monument signs.
- Could support the scale was reduced.
- Branding logo should be embossed within the actually sign.
- Freestanding signs would be more in keeping with the historic character of Delray Beach.
- Monument signs are more appropriate at the entrance of a much larger developments.
- Installation of signs should occur concurrently with the installation of neighborhood infrastructure to improvements to ensure there are no conflicts and would not be out of place.
