~ CRA BOARD SUMMARY ~

CRA FUNDED STREETScape MAINTENANCE UPDATE

At the April 13rd CRA Board meeting, Ms. Missie Barletto, Assistant Director of ESD, presented the City of Delray Beach Right-of-Way Transition Team's progress with the removal and replacement of the landscape materials with appropriate plantings, irrigation repairs, and lighting. Ms. Barletto, ESD Deputy Director of Program and Project Management Services, reported that the Swinton Avenue will be the next corridor that the City staff will be concentrating its maintenance efforts. The Board felt that the transition was heading in the right direction but was still concerned about the extended transition period. Since the SW 2nd Street landscape design is similar to the MLK Jr. Drive, CRA staff suggested that similar scope of work could be used for this corridor and this work can be combined with SW 12th maintenance efforts in the next phase.

A representative from ESD will be at the May 11, 2017 Board meeting to provide an update on the sequencing of the work for the other CRA funded Right-of-Ways such as SW 2nd Street, SW 12th Avenue, and SW 14th Avenue. It should be noted that SW 14th Avenue is not a part of the ILA and the irrigation is not consistently available along this corridor.
