D. Priority Uses

As identified in WARC’s 2012 West Atlantic Area Needs Assessment, the prioritized uses in The Set area include neighborhood supportive commercial uses as follows:

- Full-service grocery store defined as “a retail operation affiliated with a regional grocery chain and consisting of no less than 20,000 square feet of retail space offering to the general public but not limited to the sale of fresh fruits and fresh vegetables, dairy products, meat products, frozen food and vegetables, bakery items and toiletries.” “Note this is a required use.
- health and wellness facilities (urgent care, clinic, fitness);
- pharmacy*;
- financial institutions (deposits loans, currency exchange)*;
- family/social entertainment (sports bar, jazz club/lounge, amusement venues); and
- office, retail, and service uses.

Note: The pharmacy and financial institution may be located within the full-service grocery store.

The full-service grocer use is a requirement in this development project. Proposer(s) will be required to identify how the grocer use will be incorporated into the overall development and identify shared parking or other design elements that create a connected and integrated three-block development. Proposers must provide a letter of intent from a company that will operate a full-service grocery store at the Project Site. The letter of intent shall include the type of grocer, the proposed size/square footage of the store, and the timeline to complete construction of the grocery store.
