

DEVELOPMENT INFRASTRUCTURE ASSISTANCE (DIA) PROGRAM GUIDELINES

Version 2.1

Delray Beach Community Redevelopment Agency
September 11, 2018

DEVELOPMENT INFRASTRUCTURE ASSISTANCE PROGRAM (DIA)

INTRODUCTION

Projects in the City of Delray Beach Community Redevelopment Area (CRA) may be eligible for a site improvement incentive known as the Development Infrastructure Assistance (DIA) Program. This incentive is instituted to encourage property owners to make improvements within or adjacent to the public rights of way of commercial buildings. CRA would invest its capital in return for fulfilling the following objectives:

- improving both the physical appearance of the redevelopment area and the property values/marketability of surrounding properties;
- improving existing properties and their value;
- creating an improved infrastructure on both public and private land; and
- facilitating commercial development in targeted areas of the CRA District

Targeted projects are projects that include quality office and commercial space including new and/or existing commercial buildings, hotel projects, and mixed-use buildings.

The incentive is a CRA program in which a for-profit private organization requests incentive funds for the reimbursement of a portion of the cost of exterior infrastructure improvements to a site. Improvements may be either on private or public land, on the public right of way, or both.

HISTORY

The success of the CRA's community redevelopment efforts is largely dependent upon the economic vitality of the area. The CRA Plan "Overall Needs" section outlines the importance of projects aimed at increasing job growth and generating activity in the commercial areas of the CRA District, as well as the CRA's commitment to promoting economic development activities through business development grants. In addition, the Downtown Master Plan emphasizes the importance of the creation of new office space and business activity in the CRA District in order to attract a year-round day-time population of business people that would help support the CRA District merchants and restaurants. As a result, the CRA Plan "Community Improvement" section includes Economic Development Incentive Programs "to catalyze investment, to promote opportunities for new and expanding businesses, and to create jobs".

The DIA Program was originally established in 2010 and offered for a five-year term throughout the CRA District. In response to changes in the local economy and increasing demand for office and commercial space beyond the downtown core, the CRA board reinstated the program in January 2016 with several modifications, including a more focused eligibility area, a maximum incentive amount, and a local hiring bonus component.

DESCRIPTION OF THE INCENTIVE

The Development Infrastructure Assistance Program is a CRA incentive program in which the CRA reimburses a private for-profit organization fifty percent (50%) of the costs of eligible site improvements for an eligible commercial project, up to an amount not to exceed 50% of the projected Tax Increment Funds ("TIF") generated by the improvements over a five (5) year period following project completion, not to exceed \$250,000*. Qualified improvements may be either on private land or on the public right of

way or both. Incentive reimbursement would occur in five annual disbursements, beginning after the entire project, including the building structure, is complete, a Certificate of Occupancy has been issued, and payment of ad valorem property taxes has been validated. A formal incentive agreement would be prepared for final approval by the CRA Board. To maintain eligibility, CRA Board approval must be obtained prior to a final investment decision by the developer.

*(*Projects implementing a successful local hiring program may receive up to an additional \$25,000 of bonus funding. Bonus funding awards are determined by a separate calculation based on qualifying jobs and wages.)*

ELIGIBLE REIMBURSEMENT COSTS

Applications to the DIA Program will be accepted for a six-year period, starting on January 15, 2016, and ending on September 30, 2021. Costs eligible for reimbursement may include, but are not limited to, the following:

- Landscaping, irrigation, exterior site lighting, sidewalks, plazas, site walls, permanently affixed site furniture, bicycle racks, etc., located on either public right of way adjacent to the private development, or on a portion of the private property that is accessible to the public.
- Public right of way improvements along a street or alley and adjacent to the private development, including paving, sidewalks, curb & gutters, storm drainage systems, traffic signals, on-street public parking spaces.
- Signage, limited to street signage, directional signage, or monument signs, and excluding tenant signage.
- Underground and above ground public utilities, including, but not limited to, water mains, sewer mains, irrigation lines, natural gas lines, and electric utility lines.
- The construction of publicly dedicated parking lots and parking structures, or portions thereof, are eligible for reimbursement using the value of one in-lieu parking space as the base value of one publicly dedicated parking space.

Costs associated with residential uses in mixed-use projects are prohibited from being used in the valuation of eligible reimbursable costs, and may be calculated as a percentage of the overall square footage of the project.

INCENTIVE LIMITS

The maximum amount of the incentive shall be calculated at a rate of 50% of the cost of eligible reimbursable expenses. The DIA incentive award may not exceed 50% of the projected five-year TIF (not including up to \$25,000 bonus funding available for successful local hiring programs).

Project's estimated assessed value after completion shall be determined by an MIA certified appraisal report. The DIA incentive is contingent on funding availability, CRA Board approval, and the execution of the Incentive Agreement by the CRA and the Applicant, and is not to be construed as an entitlement or right of a property owner or applicant.

The CRA may at its sole discretion cease offering incentives under the DIA Program if, in its sole discretion and absolute determination, it feels that the assistance no longer benefits the furtherance of the CRA District.

ELIGIBILITY REQUIREMENTS

Applicants must meet all of the following requirements in order to be eligible to receive assistance through the Development Infrastructure Assistance Program:

1. Proposed projects must be located in one of the following sub-areas of the CRA District: #3, #4, #5, #6, #7 and #8 (refer to the attached map of the CRA Geographical Sub-Areas).
2. Applicants must illustrate a “but for” scenario, demonstrating that securing a CRA incentive will be a deciding factor in the decision to develop the project.
3. The final incentive agreement must be approved by the CRA Board and fully executed by the CRA and applicant prior to the issuance of building permits.
4. Non-profit entities subject to Property Tax Exemptions are not eligible to qualify for the DIA Program.
5. Properties are not eligible for CRA funded programs when the proposed improvements are inconsistent with the Community Redevelopment Plan, or when such funding conflicts with the goals expressed in the Community Redevelopment Plan.
6. Applicants must either own the property or must have an executed multi-year lease (40-year minimum) with the property owner, as approved by the primary lender.
7. At least 25% of the net floor area of the proposed project must consist of commercial (exclusive of multi-family residential), office, industrial and/or hotel space, in order to be eligible for a DIA incentive.
8. Office space shall have, at a minimum, ten feet clear ceiling heights.
9. The Project owner or developer must have a minimum of 20% of project costs (equity) in the financing structure. Land cost may be included as part of developer’s equity.
10. For on-site parking lots or parking structures to be eligible for the DIA Program, eligible parking spaces must be dedicated for public use.
11. Property to be improved must be free of all municipal and county liens, judgments or encumbrances of any kind. Upon incentive approval, the property must remain free of all municipal and county liens, judgments or encumbrances of any kind under the term of the agreement.
12. The Applicant may not employ or retain any company or person, other than a bona fide employee working solely for the applicant, to solicit or secure the incentive award, and not pay or agree to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the applicant, any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of the incentive award.
13. Properties in the eligibility areas are not eligible for CRA funded programs when such funding conflicts with the goals expressed in the Community Redevelopment Plan.

LOCAL HIRING BONUS

Additional funding up to a maximum of \$25,000 may be available to approved DIA projects if construction-related job positions are filled with Delray Beach residents. The bonus funding will be calculated at a rate of 5% of all certified wages paid to employees of contractors, subcontractors, and construction laborer positions held by Delray Beach residents and directly affiliated with the construction of the approved project. Grantees will be required to submit certified payroll records, proof of employee residency, and other documents as specified by the approved incentive agreement.

Job positions whose wages are not reported to the state or federal government will not qualify for local hiring bonus funding. Qualifying job positions are limited to employees residing in the 33444, 33445 and 33483 zip codes, as documented by valid forms of accepted identification. Bonus funding will be disbursed in lump sum once proof of jobs and wages have been validated to the CRA's satisfaction. Additional terms and conditions will be specified in the incentive agreement.

PROCEDURES FOR IMPLEMENTATION

Incentive approval is a two-step process, with certification of eligibility required by the CRA Board before any binding investments are made in the project. Binding investments may include, but are not limited to, property acquisition; the signing of a lease; submission of a site plan application; plat changes; or more.

If a certification of eligibility is granted, the CRA Board will pass a resolution to make DIA incentive funds available to the proposed project, subject to it being carried out and subsequent terms being agreed upon by the CRA and applicant in a final incentive agreement. Following certification of eligibility, applicants must submit additional information to demonstrate that a decision to commence development has been made and verifying consistency of the proposed project with CRA priorities. This information will be used to determine eligible expenditures and calculate the incentive award. The final incentive agreement is subject to approval by the CRA Board and must be fully executed by the applicant and the CRA before obtaining building permits for the demolition and construction of any portion of the project.

1. **Pre-Application Meeting** – All prospective applicants are required to meet with CRA staff prior to the submission of any funding request, in order to discuss the conceptual project idea, general CRA objectives, and review the incentive approval process.
2. **Preliminary Funding Request** – All applicants are required to demonstrate that the proposed development project would not proceed in Delray Beach without the investment of a DIA incentive. The following information must be submitted to the CRA before a preliminary funding request will be taken to the CRA Board for consideration:
 - a. Completed/executed application form (preliminary)
 - b. Description of the business and NAICS code
 - c. Listing of and bios for business owners and/or executive-management team, including relevant development projects and experience
 - d. If existing business, copy of articles of incorporation, proof of active corporation status and current business tax receipts (City and County).
 - e. 3-year historical financials of owner(s) or related entity
 - f. Description of the project, scope of improvements, tentative project timeline and projected local economic impact of the project. The tentative project timeline must identify, at a minimum, the following development milestones: property acquisition; preliminary drawings; site plan

- approval; final drawings; final cost estimates; building permits; and construction commencement and completion.
- g. Zoning Verification Letter prepared by the City's Planning & Zoning Department indicating that the project conceptually meets the requirements of the City of Delray Beach's Land Development Regulations
 - h. Preliminary construction cost estimate, as prepared by a certified construction industry professional
3. **Final Funding Request** – Funding requests will not be considered until after the CRA Board has certified the eligibility of the proposed project and all required documentation has been submitted to the CRA office. Application packets must include the following documentation:
- a. Completed/executed application form (final)
 - b. Copy of executed land lease (min. 40-year term) or proof of ownership of the property
 - c. Proposed project site plan, floor plans and building elevation (see Application Form for specific requirements)
 - d. Description of proposed uses, and copies of any lease agreements or Letters of Interest from prospective tenants
 - e. Ten-year operating Pro Forma including financial projections of revenues and expenses (see application form for specific requirements)
 - f. Total Project Cost Analysis prepared by a licensed General Contractor, or prepared by an MAI Appraiser with construction costs certified by a licensed General Contractor
 - g. Revisions to any documents submitted as part of the initial funding request.
 - h. Additional items as required by CRA staff
4. **Third Party Analysis** – The CRA reserves the right to have the application and its contents evaluated and analyzed by an outside third party including but not limited to: partnership/ownership information with equity positions, financial assets, mortgage on the property, tenant lease agreements, letter of Intent from lending institution, economic impact of the project, return on CRA investment and any other aspect as deemed necessary by the CRA.
5. **Approval of the Final Funding Request and Incentive Agreement** – After all required documentation has been submitted and reviewed by staff and a third party consultant as deemed necessary, staff will negotiate incentive terms with the applicant, according to prior direction and subject to the approval of the CRA Board of Commissioners and Section 163.380, Florida Statutes, as may be amended from time to time. The draft incentive agreement, including a recommended maximum incentive amount, will be presented for Board consideration. Applicants are strongly encouraged to be present at the CRA Board meeting, prepared to present its development proposal and to answer questions by the CRA Board. Following CRA Board approval of the final funding request, the CRA and the Applicant shall execute an Incentive Agreement which will clarify the terms and conditions of the incentive.
6. **Start of Construction** – Construction shall start within the time frame specified in the Incentive Agreement. If construction does not start within the specified time frame, the Incentive Agreement and the Development Infrastructure Assistance Program approval may be terminated
7. **Payments** – Subject to the terms and conditions of the Incentive Agreement, Incentive funds for reimbursement of eligible and pre-approved expenses shall occur only after the entire project,

including the building structure, has reached completion and the applicant has obtained a certificate of occupancy (CO) from the City of Delray Beach Building Department. The initial incentive payment shall be paid by the CRA to the grantee within 90 days of the project obtaining a CO, with additional annual payments made in accordance with a payment schedule that will be established in the Incentive Agreement. At the sole discretion of the CRA, incentive proceeds may be disbursed in one lump sum payment after the issuance of a Certificate of Occupancy.

- 8. **Site Visits** – CRA staff will conduct site visits before the initial reimbursement payment is made in order to verify that improvements are complete as presented in the approved application. Staff may also conduct unannounced site visits periodically in order to ensure compliance with the terms of the Incentive Agreement.
- 9. **Reporting** – By accepting Payment, the applicant agrees to comply with any reporting procedures deemed necessary by CRA staff to verify that any required project timeframes included in the incentive agreement are being adhered to, and that construction is completed as represented in the scope of improvements.

I have read completely and understand the program, including the application guidelines and funding process.
